

Automated Conferencing

Whether you need to conduct small, weekly recurring meetings or introduce a new product launch, our Automated conferencing is a simple solution to keep you connected and help you obtain your business goals.

Automated conferencing allows you to make a reservation for your call and conduct it without the assistance of an operator and no time limits.

What You Can Expect:

With our Automated conferencing you will receive a fast and dependable service that will keep you linked to colleagues, partners and customers.

- + Consistency: Receive permanent dial-in information for all of your calls
- + Convenience: Schedule your reservations with an operator or online up to 15 minutes before the start time of your call
- + Ease-of-Use: Conduct your call without the assistance of an operator
- + Reliability: Pull an operator into your call if you do need assistance by a touch of a button on your telephone keypad

Effectively Connecting People:

Bring together your participants for a variety of meetings.

- + Introduce new product launches
- + Follow-up after live meetings
- + Arrange weekly status meetings
- + Announce department updates
- + Conduct committee meetings
- + Host sales presentations
